

## Meeting 3: Monday 26<sup>th</sup> June 2023

### Agenda 1 – Updates from last meeting.

- Litter picking is going well and Miss Shaw has awarded Dojo's to many children at break and dinner time for being proactive and litter picking. Well, done!
- Children have seen that cloakrooms are tidier; however, some classrooms have become a little messy again. School councillors to remind children about hanging up their garments.
- School councillors have commented that the school looks much better now that plants have been added to the school grounds.

### Agenda 2 – Any other suggestions?

1. School Councillors have mentioned that students are still asking for a school pet to replace Molly. This has been discussed with Mrs Mackinnon and discussions are being made to see if this is possible. If there are any issues from parents/ carers then please let us know.
2. The School Council have asked for the water fountains to be switched back on. This will be actioned asap.
3. The School Council have asked for the football nets to be replaced with goals that actually have nets as this is causing injury to other children if they are walking past and other children take a shot. This is still ongoing.
4. The School Council have asked for markings on the school field for football. In the current months, this is not possible due to the number of times that the school field is cut. We are currently looking into another alternative for both the field and playground markings.

### Plan for the next meeting (TBC)

Anything to be communicated? / Updates on agendas discussed in meeting 3.

Thank you for your continued support!
