Spanish One Page Profile

Learning

Lessons should be taught in short sessions to introduce vocabulary initially. Later in the week, vocabulary should be revisited and written tasks should be completed.

How often will the previous learning be reviewed?

Supporting assessment:

Structured assessments using the jigsaw summary. These should be displayed in MFL books before the lessons and coloured in using RAG at the end of each lesson. The jigsaw pieces also need to be dated. This will help teachers understand whether children are secure before moving on.

How will you ensure someone has caught up if they are absent?

Michael Wardle HMI, **Ofsted's** subject lead for languages, discusses our language subject inspections.

Languages are an essential part of a broad, balanced curriculum. Not only do they provide an opportunity to communicate more effectively with others, they also help children to understand what it is to be a global citizen. This includes the importance of tolerance and understanding, which is crucial knowledge in today's world.

Subject leader to consider next:
- to be checking into lessons and observing good practice.
- Are the jigsaw assessments grids being used by the children and staff to inform catch up sessions.
- Ask staff how comfortable they are teaching Spanish and whether this impacts on the amount of time they spend teaching it.

Cultural Capital
At Wath Victoria, we believe that all children should have the opportunity to learn another language. Our children will learn key phrases and objects such as how to say hello, food items and colours. In addition, they will learn about the Spanish traditions and culture, including tasting food during **International Languages Day.**

Useful **websites** with games and activities to enhance your lessons.
